

# You **CAN'T** get HIV

from simply being around people who have HIV.

HIV is **NOT TRANSMITTED** through things such as:

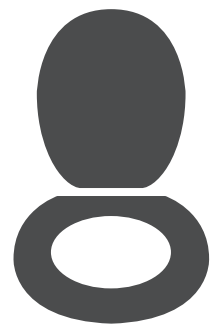

**HANDSHAKES,  
HUGGING, OR KISSING**

**SNEEZING OR  
COUGHING**

**SHARING FOOD  
OR UTENSILS**

**USING THE SAME  
TOILET SEAT**

**EDUCATING YOURSELF** about HIV transmission  
is the best way to protect yourself.
